

UNLEASHING CREATIVE GENIUS... ONE CHILD AT A TIME

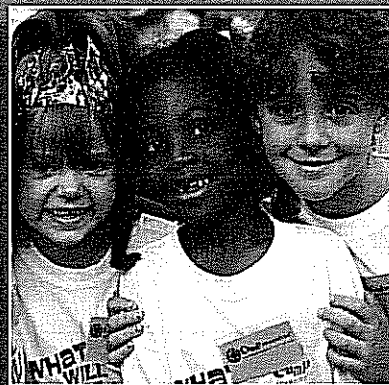

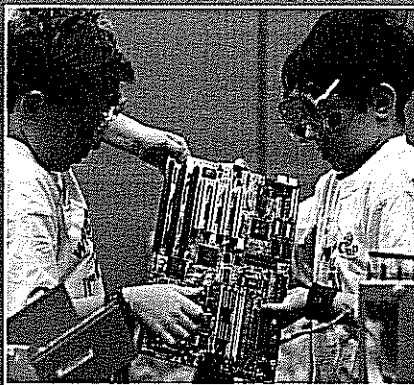

This summer, invest in the skills that will help children achieve their full potential throughout the school year. Nonprofit Invent Now Kids' premier program, Camp Invention, is a weeklong adventure in creativity. Your children will experience inquiry-based learning through FUN activities that will help them **unleash their creative genius**.

The Camp Invention program consists of **five exciting modules** that are designed to provide a unique opportunity to explore the unknown, tinker with ideas, and satisfy an innate sense of curiosity. Children must tap into their creativity to solve real-world challenges and work as a team, using problem solving as a portal to discovery.

Renowned for the difference it's making nationwide, this enrichment program provides a safe, creative outlet for children to extend school year learning through FUN, hands-on activities that develop **important life skills that prepare them for the 21st century**.

"As a parent it was priceless when my child came home and announced, 'Learning is AWESOME!'"
- Camp Invention Parent

"Camp Invention made me know that if I never give up, I can do anything."
- Camp Invention Participant

"This exciting camp is everything good science instruction should be. I am proud to be a part of Camp Invention."
- Camp Invention Educator

invent now® kids presents Camp invention®

INSPIRE A PASSION FOR LEARNING IN YOUR CHILD!

Each day, children entering grades one through six will participate in these five modules that are led by qualified local educators and full of hands-on activities.

The CREATE program features:

Problem Solving on Planet ZAK®

Crash-land on an alien planet! Use your creativity and teamwork to return home from this strange environment.

Saving Sludge City™

Sludge City is polluted, and it's up to you to GREEN UP and rebuild the town! Create clean landfills, invent vehicles that won't pollute the air, and build a new Sludge City.

Imagination Point: Ride Physics™

Design cool rides for an amusement park! Create your very own model roller coasters and daredevil rides.

I Can Invent III™

Take apart a broken machine and see what's inside. Younger children will create fantasy inventions, while older groups will work on a team Rube Goldberg challenge that creates a "mini-explosion".

Global Games™

Explore cultures from around the world by discovering the link between ancient games and those we play today. Then add your own twist and get ready to play!

LOCATION:

Taylorville Elementary School
